

DuraTap™

Test Sieve Shaker

(Sieves, Pans & Covers must be ordered separately)

Built to Take a Beating.

Answering the call for a heavy-duty test sieve shaker, Advantech proudly offers the DuraTap™. With your requirements in mind, this unit is designed to succeed where others fail. Gone are the days of needing to buy “accessory packs” of repair parts for expected breakdowns like other sieve shakers require. The DuraTap™ does not use typical plastic and wear-surface parts. This industrial-strength unit is engineered with rugged steel and alloy materials ready to withstand the everyday, harsh duty cycles. Grease fittings are provided to ensure longer life for your bearings. Each unit is “burned-in” guaranteeing performance right out of the box. Our large inventory allows this unit to ship the same day your order is placed in most circumstances.

This unit is ideal for use with aggregates, sands, cements, chemicals, powder metals, cosmetics, grains, seeds, coal, soils, coffee, tobacco, pharmaceuticals, and many other dry components in pellet, ground, granular or powder form.

- Rugged construction
- Built-in digital timer
- Grease fittings provided
- Conversion kits available

Model (For use with 8” or 200 mm diameter sieves)

DT168 (110vac / 60Hz)

DT158 (110vac / 50Hz)

DT258 (220vac / 50Hz)

DT268 (220vac / 60Hz)

Model (For use with 12” or 300 mm diameter sieves)

DT1612 (110vac / 60Hz)

DT2612 (220vac / 60Hz)

DT2512 (220vac / 50Hz)

PA8 8” or 200 mm Conversion Kit

PA12 12” or 300 mm Conversion Kit

Basic Specifications

■ Capacity

8” or 200 mm diameter
